26th TF-CSIRT meeting
Riga, Latvia

About GRENA

- GRENA was founded on 26 July 1999. It provides more than 100 institutions (about ten thousand hosts) with connectivity to Internet. These institutions are mostly located in Tbilisi. GRENA also provides Internet service in 3 major cities of Georgia: Kutaisi,Batumi and Telavi.

- Creating modern information infrastructure that will connect Georgian research and educational institutions, libraries, academic hospitals, international organizations working in education and their programs into one information system and providing connectivity to international networks.

- Development projects are being carried out in cooperation with universities and research institutions with the support of NATO Science Programme and European Commission.

more details: **www.grena.ge**

GRENA Network

- Backbone:

  Capital – 1 Gbps

  Regions – 2 Mbps for universities and research institutes, 20 Mbps for secondary schools (VPN).
  4 cities are connected, VPN – 27 cities and 151 villages.

- Users:

  GRENA is providing Internet services to 17 institutions via fiber optic, 119 institutions via DSL and 4 institutions by wireless connection.

  570 secondary schools are connected via DSL or wireless.

GRENA Network
